Dear Newt,

I'm writing to offer solidarity from our TSSA union for your members at CESSCO in Canada.

We have followed recent updates and the shocking revelation that federal covid relief funds were used to employ scab labour in your long running dispute there.

They don't call it a struggle for nothing, but such outrageous and cynical behaviour from any employer must be challenged and overthrown. We send our full support and solidarity to our brothers and sisters in this dispute.

In solidarity,

Manuel
